

## What time is it at your company?

It could be *A Quarter to Green*

Introducing **RISE**, a 90-day precision analysis to help you choose the right path to green.

**RISE** combines our team's 80+ years of expertise in the power sector with your objectives to:

- Evaluate the confusing landscape of alternatives for greening your energy spend
- Develop cost/benefit/risk scenarios
- Provide recommendations for planning
- Discover potential quick wins

**RISE offers cost-effective fees scaled to corporate renewable energy budgets and gives you *90 Days to Clarity* for this key component of your overall sustainability strategy.**

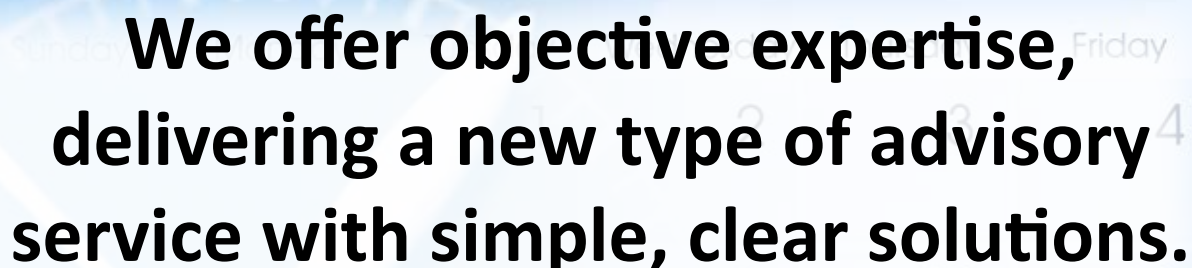

Contact RPD today to learn more about how RISE can save you time and money in selecting the right mix of renewable energy solutions for your organization.

# Renewable Integration Service Evaluation

**RISE** is a new service that cuts through the clutter and provides clear renewable energy options for you and your organization in 90 days or less.

- No obligation to transact
- No hidden fees
- No scope creep
- Not an RFP Service

**We offer objective expertise, delivering a new type of advisory service with simple, clear solutions.**

#### Outcomes include:

- A much better understanding of solutions that green your energy spend (PPAs, VPPAs, Onsite Solar, Offsite Projects, RECs, and other options)
- How each fits with your organization's objectives and impacts short and long term strategy development
- Clarity for your options for 2018 planning in just 90 days
- Objective expertise with no risk and no obligation to transact

## 90 Days to Clarity

*Renewable Power Direct is changing the renewables landscape by providing our customers meaningful and executable renewable solutions.*
